ELSEVIER

Journal of Hydrology 205 (1998) 301–302

Journal of Hydrology

Contents of Volume 205

Vol. 205 Nos. 1–2 **26 FEBRUARY 1998**

Editor's note v

Research Papers

Statistical downscaling of hydrometeorological variables using general circulation model output
R.L. Wilby, H. Hassan and K. Hanaki 1

Geostatistical characterisation of soil moisture patterns in the Tarrawarra catchment
A.W. Western, G. Blöschl and R.B. Grayson 20

Numerical evaluation of exponential integral: Theis well function approximation
P.-H. Tseng and T.-C. Lee 38

Synthesis of rating curves from local stage and remote discharge monitoring using nonlinear muskingum routing
A.L. Birkhead and C.S. James 52

Dependency of summer lake inflows and precipitation on spring SOI
A.I. McKerchar, C.P. Pearson and B.B. Fitzharris 66

Point cumulative semivariogram of a real precipitation in mountainous regions
Z. Şen and Z.Z. Habib 81

Analysis of recharge by paddy field irrigation using ^{222}Rn concentration in groundwater as an indicator
H. Hamada and T. Komae 92

An historical record of evaporation losses since 1815 calculated using long-term observations from the Radcliffe Meteorological Station, Oxford, England
T.P. Burt and M. Shagedanova 101

Statistical and analytical study of the propagation of flood-induced groundwater rise in an alluvial aquifer
Z. Vekerdy and A.M.J. Meijerink 112

Mobilization of thorium, radium and radon radionuclides in ground water by successive alpha-recoils
H. Sun and T.M. Semkow 126

Discussion

A general lumped parameter model for the interpretation of tracer data and transit time calculation in hydrologic systems (Journal of Hydrology, Vol. 179 (1996) 1–21)
Reply I.E. Amin and M.E. Campana 137

Book reviews

Environmental Regulation and Impact Assessment, L. Ortalano 138

Review of Land Surface Processes in Hydrology, Trials and Tribulations of Modeling and Measuring, S. Sorooshian, H.V. Gupta and J.C. Rodda 140

Guide for Authors 142

Vol. 205 Nos. 3–4 **MARCH 1998**

Assessing the effect of land use change on catchment runoff by combined use of statistical tests and hydrological modelling: Case studies from Zimbabwe
J.K. Lørup, J.C. Refsgaard, and D. Mazvimavi 147

A biophysical process-based estimate of global land surface evaporation using satellite and ancillary data. I. Model description and comparison with observations
B.J. Choudhury and N.E. DiGirolamo 164

A biophysical process-based estimate of global land surface evaporation using satellite and ancillary data. II. Regional and global patterns of seasonal and annual variations
B.J. Choudhury, N.E. DiGirolamo, J. Susskind, W.L. Darnell, S.K. Gupta and G. Asrar 186
An algorithm for designing a precipitation network in the south-western region of Saudi Arabia
M. Al-Zahrani and T. Husain 205
Contribution of correlation and spectral analyses to the regional study of a large karst aquifer (Charente, France)
M. Larocque, A. Mangin, M. Razack and O. Banton 217
Estimating transport parameters in an undisturbed soil column using time domain reflectometry and transfer function theory
M. Persson and R. Berndtsson 232
Effects of a beaver pond on runoff processes: comparison of two headwater catchments
D.A. Burns and J.J. McDonnell 248
Seasonal variations of dissolved inorganic carbon and $\delta^{13}C$ of surface waters: application of a modified gas evolution technique
E.A. Atekwana and R.V. Krishnamurthy 265
Evaporation from a central Siberian pine forest
F.M. Kelliher, J. Lloyd, A. Arneth, J.N. Byers, T.M. McSeveny, I. Milukova, S. Grigoriev, M. Panfyorov, A. Sogatchev, A. Varlargin, W. Ziegler, G. Bauer and E.-D. Schulze 279
